

Base URL: [api](#)

OPTIONS on any collection resource

GET arguments: paging

Component	Endpoint	Comment	Object	GET operation order: 100	POST operation order: 200	PUT operation order: 300	DELETE operation order: 400
System	/health/live	Test system health state (Fast)	Test health state	Get health state			
System	/health/ready	Test system detail health state (Slow)	Test health state	Get health state			
System	/health/ok	Test system detail health state (Slow)	Test health state	Get health state			
Admin	/admin/application/shard				Stop application		
Admin	/admin/application/clearcache				Clear application cache		
Admin	/admin/register/methods		String[]	Get API report methods			
Shard	/shards/regulations		Regulation[]	Get regulation shards	Set regulation share		
Shard	/shards/regulations/id		Regulation	Get regulation share	Set regulation share		Delete regulation share
Shard	/shards/regulations/id/attributes/an	an: attribute name	Regulation	Get regulation share attribute	Set regulation share attribute		Delete regulation share attribute
Tenant	/tenants		Tenant[]	Get tenants	Add tenant	Update tenant	Delete tenant
Tenant	/tenants/id		Tenant	Get tenant			
Tenant	/tenants/id/attributes/an	an: attribute name	Tenant	Get tenant attribute	Set tenant attribute	Update tenant	Delete tenant attribute
Tenant	/tenants/id/attributes/regulations		Regulation[]	Get tenant regulations			
Tenant	/tenants/id/queries		Tenant[]	Get tenant attribute			
Tenant	/tenants/id/actions		Action[]	Get system action info	Execute a report query		
Calendar	/tenants/id/calendars		Calendar[]	Get calendars	Add calendar	Update calendar	Delete calendar
Calendar	/tenants/id/calendars/id		Calendar	Get calendar			
Calendar	/tenants/id/calendars/periods		CalendarPeriod	Get calendar period			
Calendar	/tenants/id/calendars/cycles		CalendarCycle	Get calendar cycle			
Calendar	/tenants/id/calendars/values		String	Calculate calendar value			
User	/tenants/id/users		User[]	Get users	Add user		
User	/tenants/id/users/id		User	Get user			
User	/tenants/id/users/id/password		String	Set user	Test user password	Update user password	Delete user
User	/tenants/id/users/id/attributes/an	an: attribute name	String	Get user attribute		Update user attribute	Delete user attribute
Division	/tenants/id/divisions		Division[]	Get divisions	Add division	Update division	Delete division
Division	/tenants/id/divisions/id		Division	Get division			
Division	/tenants/id/divisions/id/attributes/an	an: attribute name	Division	Get division attribute	Set division attribute	Update division	Delete division attribute
Task	/tenants/id/tasks		Task[]	Get tasks	Add task	Update task	Delete task
Task	/tenants/id/tasks/id		Task	Get task			
Task	/tenants/id/tasks/id/attributes/an	an: attribute name	Task	Get task attribute	Set task attribute	Update task	Delete task attribute
Log	/tenants/id/logs		Log[]	Get logs	Add log		
Log	/tenants/id/logs/id		Log	Get log			
Log	/tenants/id/logs/report		Report[]	Get report logs	Add report log		
Log	/tenants/id/logs/report/id		Report	Get report log			
Global	/tenants/id/global/cases		Case[]	Get global cases	Add global case		
Global	/tenants/id/global/cases/id		Case	Get global case value slots			
Global	/tenants/id/global/cases/id/values		CaseValue	Get global case value slots			
Global	/tenants/id/global/cases/id/documents		CaseDocument[]	Get global case documents			
Global	/tenants/id/global/cases/id/documents/id		CaseDocument	Get global case document			
Global	/tenants/id/global/cases/changes	change tracking	CaseChange[]	Get global case value changes			
Global	/tenants/id/global/cases/changes/id		CaseChange	Get global case value change			
Global	/tenants/id/global/cases/changes/values	change tracking	CaseChangeValue[]	Get global case values of value changes			
National	/tenants/id/national/cases		Case[]	Get national cases	Add national case		
National	/tenants/id/national/cases/id		Case	Get national case value slots			
National	/tenants/id/national/cases/id/values		CaseValue	Get national case value slots			
National	/tenants/id/national/cases/id/documents		CaseDocument[]	Get national case documents			
National	/tenants/id/national/cases/id/documents/id		CaseDocument	Get national case document			
National	/tenants/id/national/cases/changes	change tracking	CaseChange[]	Get national case value changes			
National	/tenants/id/national/cases/changes/id		CaseChange	Get national case value change			
National	/tenants/id/national/cases/changes/values	change tracking	CaseChangeValue[]	Get national case values of value changes			
Company	/tenants/id/companies/cases		Case[]	Get company cases	Add company case		
Company	/tenants/id/companies/cases/id		Case	Get company case value slots			
Company	/tenants/id/companies/cases/id/documents		CaseDocument[]	Get company case documents			
Company	/tenants/id/companies/cases/id/documents/id		CaseDocument	Get company case document			
Company	/tenants/id/companies/cases/changes	change tracking	CaseChange[]	Get company case value changes			
Company	/tenants/id/companies/cases/changes/id		CaseChange	Get company case value change			
Company	/tenants/id/companies/cases/changes/values	change tracking	CaseChangeValue[]	Get company case values of value changes			
Employee	/tenants/id/employees/cases		Case[]	Get employees	Add employee	Update employee	Delete employee
Employee	/tenants/id/employees/id		Employee	Get employee			
Employee	/tenants/id/employees/id/attributes/an	an: attribute name	Employee	Get employee attribute	Set employee attribute	Update employee attribute	Delete employee attribute
Employee	/tenants/id/employees/id/documents		CaseDocument[]	Get employee case values	Add employee case changes		
Employee	/tenants/id/employees/id/values		CaseValue	Get employee case value slots			
Employee	/tenants/id/employees/id/documents/id		CaseDocument	Get employee case documents			
Employee	/tenants/id/employees/id/documents/id/documents		CaseDocument	Get employee case document			
Employee	/tenants/id/employees/id/documents/id/documents/changes	change tracking	CaseChange[]	Get employee case value changes			
Employee	/tenants/id/employees/id/documents/id/documents/changes/id		CaseChange	Get employee case value change			
Employee	/tenants/id/employees/id/documents/id/documents/changes/values	change tracking	CaseChangeValue[]	Get employee case values of value changes			
Regulation	/tenants/id/regulations		Regulation[]	Get regulations	Add regulation		
Regulation	/tenants/id/regulations/case/id	case: case field name	Regulation	Get case of case field			
Regulation	/tenants/id/regulations/id		Regulation	Get regulation			
Regulation	/tenants/id/regulations/id/attributes/an	an: attribute name	Regulation	Get regulation attribute	Set regulation attribute	Update regulation attribute	Delete regulation attribute
Regulation	/tenants/id/regulations/id/documents		Case[]	Get case	Add case		
Regulation	/tenants/id/regulations/id/documents/id		Case	Get case			
Regulation	/tenants/id/regulations/id/documents/id/values		CaseValue	Get case value slots	Add case field		
Regulation	/tenants/id/regulations/id/documents/id/values/id		CaseField	Get case field			
Regulation	/tenants/id/regulations/id/documents/id/values/id/documents	change tracking	CaseFieldDocument[]	Get case field audits			
Regulation	/tenants/id/regulations/id/documents/id/values/id/documents/id	change tracking	CaseFieldDocument	Get case field audits			
Regulation	/tenants/id/regulations/id/documents/id/values/id/documents/id/changes	change tracking	CaseFieldDocumentChange[]	Get case field audits			
Regulation	/tenants/id/regulations/id/documents/id/values/id/documents/id/changes/id	change tracking	CaseFieldDocumentChangeValue[]	Get case field audits			
Regulation	/tenants/id/regulations/id/documents/id/values/id/documents/id/changes/id/values	change tracking	CaseFieldDocumentChangeValue	Get case field audits			
Regulation	/tenants/id/regulations/id/documents/id/values/id/documents/id/changes/id/values/changes	change tracking	CaseFieldDocumentChangeValueChange[]	Get case field audits			
Regulation	/tenants/id/regulations/id/documents/id/values/id/documents/id/changes/id/values/changes/id	change tracking	CaseFieldDocumentChangeValueChangeValue[]	Get case field audits			
Regulation	/tenants/id/regulations/id/documents/id/values/id/documents/id/changes/id/values/changes/id/values	change tracking	CaseFieldDocumentChangeValueChangeValueValue[]	Get case field audits			
Regulation	/tenants/id/regulations/id/documents/id/values/id/documents/id/changes/id/values/changes/id/values/changes/id/values/changes	change tracking	CaseFieldDocumentChangeValueChangeValueChange[]	Get case field audits			
Regulation	/tenants/id/regulations/id/documents/id/values/id/documents/id/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes	change tracking	CaseFieldDocumentChangeValueChangeValueChangeValue[]	Get case field audits			
Regulation	/tenants/id/regulations/id/documents/id/values/id/documents/id/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes	change tracking	CaseFieldDocumentChangeValueChangeValueChangeValueValue[]	Get case field audits			
Regulation	/tenants/id/regulations/id/documents/id/values/id/documents/id/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes	change tracking	CaseFieldDocumentChangeValueChangeValueChangeValueValueValue[]	Get case field audits			
Regulation	/tenants/id/regulations/id/documents/id/values/id/documents/id/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes	change tracking	CaseFieldDocumentChangeValueChangeValueChangeValueValueValueValue[]	Get case field audits			
Regulation	/tenants/id/regulations/id/documents/id/values/id/documents/id/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes	change tracking	CaseFieldDocumentChangeValueChangeValueChangeValueValueValueValueValue[]	Get case field audits			
Regulation	/tenants/id/regulations/id/documents/id/values/id/documents/id/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes	change tracking	CaseFieldDocumentChangeValueChangeValueChangeValueValueValueValueValueValue[]	Get case field audits			
Regulation	/tenants/id/regulations/id/documents/id/values/id/documents/id/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes	change tracking	CaseFieldDocumentChangeValueChangeValueChangeValueValueValueValueValueValueValue[]	Get case field audits			
Regulation	/tenants/id/regulations/id/documents/id/values/id/documents/id/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes	change tracking	CaseFieldDocumentChangeValueChangeValueChangeValueValueValueValueValueValueValueValue[]	Get case field audits			
Regulation	/tenants/id/regulations/id/documents/id/values/id/documents/id/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes	change tracking	CaseFieldDocumentChangeValueChangeValueChangeValueValueValueValueValueValueValueValueValue[]	Get case field audits			
Regulation	/tenants/id/regulations/id/documents/id/values/id/documents/id/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes	change tracking	CaseFieldDocumentChangeValueChangeValueChangeValueValueValueValueValueValueValueValueValueValue[]	Get case field audits			
Regulation	/tenants/id/regulations/id/documents/id/values/id/documents/id/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes	change tracking	CaseFieldDocumentChangeValueChangeValueChangeValueValueValueValueValueValueValueValueValueValueValue[]	Get case field audits			
Regulation	/tenants/id/regulations/id/documents/id/values/id/documents/id/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes/id/values/changes	change tracking	CaseFieldDocumentChangeValueChangeValueChangeValueValueValueValueValueValueValueValueValueValueValueValue[]	Get case field audits			
Regulation	/tenants/id/regulations/id/documents/id/values/id/documents/id/changes/id/values/changes						

Use of POST instead of GET according RFC7231 <https://datatracker.jeff.org/doc/html/rfc7231#section-4.3.1>
